Roland Vas

Web Developer

About Me

I am a German speaking Web Developer with experience in building web apps with JavaScript & Angular. You can find my projects that include responsive websites and business apps in my public portfolio. During my studies I have learned the basics of cnc programming which aroused my interest. Later, when I started my IT journey coding my own small websites at home I wanted to deepen my knowledge in this field so I decided to get professional training and build projects. I applied to the Developer Akademie where I gained complete and comprehensive knowledge in web development. I am looking forward to building on my experience and starting my career in IT in a junior developer position.

Main Stack:

- JavaScript
- TypeScript, Angular
- HTML, CSS, Bootstrap

Side Stack:

- Git, APIs (REST), Google Firebase

Skills

- **Building Applications with JavaScript & Angular:** I built landing-pages and several web apps as well as OOP-based Jump-and-Run-Games with the respective technologies.
- **Working in a Software-Team:** During learning coding, I did several group projects where I learnt how to develop a software project in a team.
- **High sense of responsibility:** I am used to taking responsibility and working diligently as I always did in my job as an maintenance engineer.
- **Eager to learn:** I always enjoy learning and improving my skills which helped me to gain new knowledge in a short time

Professional Experience

Melecs EWS GmbH / Maintenance engineer

10.2018 - Today, Siegendorf

- Machine maintenance on a weekly, monthly and annual cycle
- Documentation of work performed
- Troubleshooting machine problems
- Train new employees

Your-Tool GmbH / Tool Mechanic

07.2017 - 10.2018, Steinbrunn

- Programming for EDM machines
 - Manufacture of parts
 - Control of manufactured parts
-

Education

Developer Akademie / JavaScript & Angular Web Development

Training
